Technologies

Profile

Junior Software Developer and current student at **ITS Incom**, passionate about computer science, game development, and AR/VR technologies. Experienced in Microsoft Dynamics Dynamics 365 F&O consultancy, with hands-on knowledge of the Docentric toolkit and SCM modules. Currently seeking opportunities to apply and grow technical skills in the gaming and immersive technology space.

Experiences

Junior Solution Consultant

Nov 2023 - Sep 2025

DTens is an Italian ICT company specializing in D365 consultancy, custom apps, and supply chain solutions, helping businesses innovate and optimize operations.

- **Business Process & Solution Design:** Analyze and document SCM business processes, and design customized solutions in D365 F&O.
- **Documentation & Testing:** Create functional and technical documentation, and validate solutions through internal and end-user testing.
- **Application Support & Integration:** Maintain and optimize Dynamics 365 F&O applications, including Docentric integration for enhanced reporting and document generation.
